Suppliers of Gas Analysis Equipment

MAS MOBILE ANALYSIS SYSTEM

The MAS system combines a 19" gas analyser and a sample conditioning system in a rigid transport case. The conditioning components, including the cooler, filter, pump and flowmeter, are customised to the application.

The transport case is highly shock resistant, has a handle and wheels for easy movement, and is lockable.

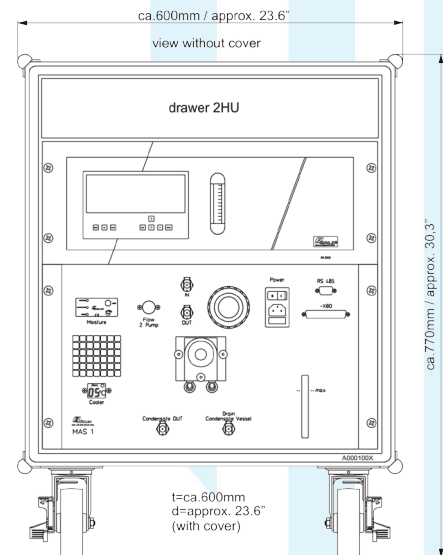

FEATURES

**Analyser and Sample Conditioning System in One Housing | Highly Customisable
Completely Mounted and Wired | Rigid, Shock Resistant Case with Wheels and Handles**

SPECIFICATIONS

Product No.	MAS
Ambient Temp.	0 ... 50 °C
Weight	About 55 kg
Power Supply	230V / 50 Hz
Total Gas Flow	About 120 l/h
Housing Size	Dependant on Application
Available Analysers	Oxygen: BA3000 or BA6000-02 Multi-Gas: BA3500, BA5000 or BA6000-IR
Sample Conditioning System	Dependant on Application

ORDERING INFORMATION

To order this product, get into contact with us and we'll send a questionnaire in which you can specify the components you want, the specification that the system has to fulfil, plus other criteria. We'll then work with you to produce a system which fulfils your requirements and construct it to your specification.
